Document Formatting
Customer Support

UMAIR KHAN

Computer Science Student | Full Stack Web Developer | Virtual Assistant

uk03499314094@gmail.com | +92 349 9314094 | Mardan, Pakistan

linkedin.com/in/umair-khan-dev | github.com/umair-khan-dev

CAREER OBJECTIVE

Motivated Computer Science student at University of Engineering & Technology Mardan with interest in software development, web development, mobile app development, computer networks, and operating systems. Seeking an opportunity to improve technical skills, work on real-world projects, and contribute to a professional software development team.

EDUCATION

Bachelor of Science in Computer Science

University of Engineering & Technology, Mardan

4th Semester | Section D | Registration No: 24MDBCS732 | Expected Graduation: [Year]

PROJECTS

Weather App

- Developed a Flutter/Dart weather application with a simple user interface.
- Practiced API-based weather data concept, city search, app testing, and debugging.

Student Management System

- Created a basic system for student data entry and record management.
- Improved programming logic and simple user interaction skills.

Online Food Ordering System - SRS Project

- Prepared Software Requirements Specification with functional and non-functional requirements.
- Included use case model, sequence diagram, system scope, and objectives.

ACADEMIC KNOWLEDGE

- AI and Machine Learning in Network Management
- IoT-Based Smart Networks, IPv4 and IPv6 Comparison
- Operating System Concepts, Deadlock, Memory Management
- Computer Network Routing, Protocols, CRC, Error Detection
- Software Development Models, Testing, and Project Management

EXPERIENCE

- **Full Stack Web Developer** – Built responsive web applications using MERN stack (MongoDB, Express.js, React.js, Node.js).
- **Virtual Assistant** – Providing administrative support including email management, data entry, internet research, and calendar management.
